Fabled legacy, cutting edge technology and uncompromised craftsmanship. As the world’s most prestigious rifle and cartridge brand, Sako brings all these vital factors together like no other.

Sako products and way of working are based on a culture deeply rooted in the unforgiving Nordic nature. Overcoming these harsh conditions has always demanded perfection in every detail. All of our rifles comply with CIP and SAAMI requirements and are designed for and tested in ultimate conditions. We also produce high-quality centerfire cartridges with more than 100 different loads in 32 calibers for different targets and hunting purposes.

Times may change, but our mission remains the same: to offer our customers the very best in accuracy and performance.

We are hunters. We demand perfection.
For us, it’s not just a profession – it’s a passion, a lifestyle we share with our customers.

MADE BY HUNTERS

There’s nothing more precious than sitting by the fire and sharing something special with your fellow hunters. It’s no secret that Sako’s global reputation is rooted in the unique skills and expertise of our employees, hunters who also share this way of life.

Combining a passion with work creates something truly new. The insights we get out there in the forest support what we develop next at the job, and the stories shared are built into our future products. We know the difference good quality can make.

Read our stories at sako.fi/manufacturing
We take great pride in our work. Each rifle is carefully assembled by a single person, and each individual barrel is visually inspected. Every rifle goes through manual accuracy testing to ensure it can perform under 1MOA accuracy and is delivered with a certification that guarantees its quality and accuracy.

Sako’s history goes back to the early 1920s. Since then, we’ve come a long way from manufacturing by hand to today’s computer-aided R&D and CNC manufacturing. And yet, we have not forgotten the value of traditional gunsmith craftsmanship.
The new Sako S20 is the first true hybrid rifle, the one that both hunters and precision shooters can embrace. It’s designed for passionate shooters who want to take and stay in control in every situation. The modular structure adapts to changing lifestyles, making S20 a truly future-proof bolt action rifle.

SELECT YOUR SAKO S20

Use our selector to find the right Sako S20 rifle for you – the one that is a perfect reflection of who you are and where you want to go. www.sako.fi/s20
ERGONOMIC HUNTING STOCK

The S20 hunting stock was designed with ultimate shooting comfort and ergonomics in mind. Having the best, most ergonomic grip on your rifle improves accuracy without compromising comfort. In an intense hunting situation, this can be the deciding factor between success and failure.

TACTICAL PRECISION STOCK

The S20 precision stock was created specifically for long distance and precision shooters. To ensure maximised control, accuracy and comfort, its features can be easily adjusted to your needs and complemented by multiple accessories via M-LOK placements.

THUMBHOLE-STYLE PISTOL GRIP

The thumbhole-style design suits all hand sizes. It’s made of high-quality soft, leather-like synthetic materials that provide the optimal grip in all situations.

QD SLING PLACEMENTS

The QD sling placements on both sides of the stock enable fast and easy attachment of the sling, improving rifle handling.

ADJUSTABLE LENGTH OF PULL

ADJUSTABLE CHEEK PIECE

ADJUSTABLE TRIGGER POSITION AND WEIGHT OF PULL

ADJUSTABLE RECOIL PAD LENGTH AND HEIGHT

ADJUSTABLE TRIGGER POSITION AND WEIGHT OF PULL

THUMB REST

Enables the use of the non-trigger hand as support under the stock.

M-LOK PLACEMENTS

The forend has integrated M-LOK placements on both sides (one on either side) and on the bottom (3+1).
QD SLING SWIVELS are compatible with Sako S20’s or any other rifle’s QD sling mounts.

5 MM SPACER SETS are available for adjusting length of pull.

MUZZLE BRAKES are available for different barrel contours.

BARRICADE STOP The barricade stop allows the shooter to support the rifle on barricades or obstacles without damaging the magazine and achieving a steadier position for maximum precision. It can be attached to any M-LOK compatible forend or handguard.

10-ROUND MAGAZINE If you want extended magazine capacity, 10 round (7 Magnum) magazines are available. Sako S20 magazines were designed to support reloaders with their longer maximum cartridge length and to safeguard the bullet from recoil damage.

MONOPOD The M-LOK compatible monopol provides further stability and support when you need that extra precision. You can quickly engage the desired height with one push of a button. The mount also has a threaded micro adjustment so that you can fine-tune your rifle’s elevation by rotating the pod.

THUMB REST With the S20 thumb rest, you can easily improve your shooting position by placing your thumb on either the left or the right side of the precision stock. It enables a more secure and fixed hand position for more accurate index finger trigger control.

FOREND AND REAR STOCK The takedown stock of the Sako S20 allows for great modularity, so that your rifle can be configured according to your preferences with different rearstocks and forends.

ACCESSORIES

SCOPE MOUNT Our high-duty performance scope mount, made from extremely strong aircraft-grade aluminium and steel, provides a strong hold for a rigid scope on the Picatinny rail. It comes in a variety of different ring heights (low, medium and high) and ring diameters (1 in, 30 mm, 34 mm and 36 mm).

**STOCK MODELS**
You can choose how your rifle is put together, from stock model and wood quality to engravings and a range of other details.

**WOOD GRADES**
Our globally recognised experts have years of experience crafting and working with wood. This ensures your stock always represents the absolute best of its grade. If you want, you can upgrade your stock grade from standard to high or even to our prestigious exhibition grade. We can also arrange a meeting where you can come in and select your own stock.

- Standard Grade
- High Grade
- Exhibition Grade

**ENGRAVINGS**
To give the final touch to your rifle, you can choose between three beautiful engraving options for your rifle’s breech, pistol grip plane and the bottom of the magazine. Acanthus Leaf 2 option also has engraving in the bolt shroud.

- Acanthus Leaf 1
- Acanthus Leaf 2
- American Scroll 1

**OTHER DETAILS**
In addition to stock model, wood grade and engravings, you can also select your open sight, length of the barrel and trigger mechanism. Material and finish options available depend on the stock and engravings you have chosen.

- Polished Blackened Carbon Steel
- Polished Stainless Steel
- Blackened Carbon Steel (Mat Finish)
- Stainless Steel (Mat Finish)
Versatility is the mark of true excellence. The Sako 85 rifles are built with demanding design criteria, based on long tradition and newest innovations, allowing you to choose the best option for any hunting or training purpose.

The Sako 85 rifle range includes several models with several stock styles and barrels. These options, combined with comprehensive caliber selection, will give you the ultimate bolt-action rifle: accurate, prestigious and durable. When you choose Sako 85, you choose value that lasts from father to son.

SAKO 85 RIFLES

Choosing the right rifle is the most crucial decision a hunter can make. To simplify the process, we have released an easy-to-use online selector to help you find the best Sako 85 rifle for you.

Select your Sako 85

Choose the right rifle is the most crucial decision a hunter can make. To simplify the process, we have released an easy-to-use online selector to help you find the best Sako 85 rifle for you.

Compare calibers, sights and other specs and find the right model based on your needs. Check out our wide selection and select your own Sako 85: choose.sako.fi
**BOLT**
Sako 85 bolt body is constructed from forged solid steel blank. One piece bolt body is machined from a blank so that it includes the bolt handle. This uniform construction is extremely rigid and robust.

**EXTRACTOR & EJECTION**
The Sako 85 has a famous extractor claw made of durable heat-treated steel. When the bolt forces the case back, the mechanical ejector fork ejects the case out of the rifle. The extractor is at the bottom of the rear bridge, not on the bolt face.

**STOCK**
The ergonomics of Sako 85’s walnut and synthetic stocks are built for an optimal shooting posture. The excellent balance and smooth bolt operation of Sako 85 rifles enable fast, straight and accurate operation.

**SAFETY**
The special two-way Sako safety locks both the trigger and the bolt handle. The unique bolt release button of the Sako Safety system allows you to load or remove a cartridge from the chamber while the safety is engaged.

**TRIGGER**
The weight of pull of the single-stage Sako 85 trigger unit is adjustable from 1.5 to 2.5 kg (3.3–5.5 lbs). An optional single-set trigger is available for most Sako 85 models. All Sako 85 rifles have an extremely durable, all-steel trigger guard that protects the trigger. An exception to this are the Finnlight and Carbonlight models, which have a lightweight hard-anodized aluminum trigger guard.

**EXTRACTOR & EJECTION**
The Sako 85 extractor is a new design, allowing for easier extraction and ejection. The extractor is located at the rear of the receiver, just below the bolt.

**ACTION**
Sako 85 actions are available in both left and right-handed versions. The action features a safety catch that prevents accidental discharge. The bolt handle is designed for a natural shooting position, allowing for rapid repeat firing.

**MAGAZINE**
The staggered, two-row magazine of the Sako 85 is made of stainless steel. The detachable magazine can be loaded through the ejection port. The Total Control Latch prevents accidental magazine release.

**BARREL**
Sako 85 barrels are manufactured with a precision for craftmanship and the very best knowledge of Sako. Barrel blanks are drilled, honed, cold-hammer forged, finished and finally individually inspected to ensure top performance. Barrel blanks are chosen for each caliber to optimize accuracy and bullet performance. Sako 85 barrels feature the latest, satiny, satin-like surface – with the exception of the Sako 85 Deluxe and Sako in models that have a highly polished finish, and the Sako Finnlight I model that has a weather-resistant Cerakote coating.

**INDIVIDUALLY PERFECT**
Throughout the brochure, these icons provide you with key technical information at a glance.

**SPECIFICATIONS**
Most Sako models feature set trigger, open sights and muzzle threading as options. Check availability with your local retailer.

- **Action size**: S, SM, M & L

85 CARBONLIGHT

The Sako 85 Carbonlight is a high-end rifle designed for gear-oriented enthusiasts after any type of game. This ultra-light multi-purpose hunting rifle features a carbon fiber stock with a soft-touch surface, a right-hand palm swell and a cheek piece. With an approximate weight of only 2.4 kg, the Sako 85 Carbonlight with S-action or the new XS-action is exceptionally comfortable to carry, even on long treks. You can also pick a left-handed option and different action lengths, including M-action.

TECHNOLOGY

The Sako 85 Carbonlight rifle is built using the same CFRP technology that is used in both car and aerospace industries. This makes it extremely light, durable and rigid, resulting in a one-of-a-kind rifle.

MUZZLE BRAKE

Carbonlight in L action size calibers are delivered with a separately packed muzzle brake.

- Available in S, M & L action sizes

Overall weight: 2.4-2.8 kg

Available as a left-handed model

Overall length: 1020-1148 mm

Barrel length: 510, 570, 620 mm
85 SAFARI
The Sako 85 Safari is a bolt-action rifle made for the most demanding hunters. Each Safari rifle has a hand polished barrelled action. This rifle features epoxy bedding for the best and most durable fit and accuracy. The stock is made from high-grade walnut featuring detailed rosewood fore-end cap and grip cap.

85 CLASSIC DELUXE
The Sako 85 Classic Deluxe combines a highly polished metal finish with a world-class stock design. The high-grade walnut stock offers a palm swell and a traditional cheek piece to guarantee an ergonomic shooting posture in rapid hunting situations. This rifle has been designed for the hunter who appreciates the look and feel of a high-quality walnut stock combined with the Sako 85 action.

PREMIUM STOCK
The classic appearance of the handmade Safari stock is finished off with a custom-made Pachmayr recoil pad. The high-grade walnut stock features traditional hand-cut checkering, and the fore-end tip and pistol grip cap are made of ebony.

CLASSIC DESIGN
The 85 Classic Deluxe has a classic cheek piece, a pronounced pistol grip and a barrel band for swivel attachment.

### 85 DELUXE

The traditional Sako 85 Deluxe combines an attractive, timeless appearance with superior Sako accuracy and reliability. The warmth of the high-grade walnut stock, rosewood details and classic checkering give this fine rifle its distinctive look. Highly polished metal parts, fixed magazine and the Sako pistol grip inlay are just a few of the custom features of this elegant rifle.

The Sako 85 Bavarian combines classic, traditional design with modern technology and performance. Under the high-grade walnut stock, a tribute to Central European tradition, lie the new modern features of the Sako 85 action. The Sako 85 Bavarian is also available as a left-handed version.

**85 BAVARIAN**

The oil-finished walnut stock also features a Schnabel-type fore-end and a pistol grip cap in rosewood. The classic checkering pattern of the Sako 85 Bavarian provides both functionality and traditional looks. Other characteristics of this classic model are the Bavarian cheek piece and comb.

### 85 HUNTER & HUNTER STAINLESS

The Sako 85 Hunter comes with world-class Sako features, including the legendary Sako accuracy, smooth bolt operation and perfect balance, making it a valued rifle to both own and to shoot. Its design combines a walnut stock with either blued or stainless metal parts. Iron sights are available for the blued barrel option.

### FEATURES
- World-class Sako features
- Legendary Sako accuracy
- Smooth bolt operation
- Perfect balance

### OPTIONS
- Walnut stock
- Blued or stainless metal parts
- Iron sights on blued barrel

### AVAILABILITY
- Available in left-handed action size calibers as well
**85 LAMINATED STAINLESS**

The Sako 85 Laminated Stainless, with its high-grade stainless steel barrel, receiver and bolt, is one of the world’s most distinctive hunting rifles. The grey matte-lacquered laminated hardwood stock provides a stable platform that withstands even the toughest conditions. The straight grey stock and stainless hardware of the Sako 85 Laminated Stainless is matched with silver-grey scope mounts.

**85 FINNLIGHT**

The Sako 85 Finnlight rifle is for those who foray deep into the wild to reach their goal. Hunters on mountain trails or on long-distance treks prefer high-performance rifles that are full-sized, yet still lightweight. The fluted barrel of the Finnlight is just one of the many features that make it ideal for the hunter seeking a perfectly trimmed light rifle. The Sako 85 Finnlight is also an excellent choice for women and younger shooters.

Every seasoned hunter knows the importance of choosing the right tool for the task. When facing a true challenge, you must be able to trust the accuracy and reliability of your rifle.

The Grizzly, Black Bear, Brown Bear and Kodiak are purpose-oriented weapons for big game hunting. Due to optimised length, these rifles are easy to carry and well-suited for dense forest conditions and medium to close range situations. All four Bear models feature adjustable fast target acquisition iron sights and detachable staggered two-row steel magazine with the Total Control Latch, preventing unintentional magazine release.

Bear series rifles can be top-loaded and have controlled cartridge feed, an adjustable single stage trigger and barrel band for front swivel – plus mechanical case ejection. They are also equipped with integral dovetail rails for secure scope mounting.
85 GRIZZLY

The Sako 85 Grizzly adds prestige to the Sako Bear Series. Its high-grade walnut stock, medium-contour fluted barrel and blued action give it an elegant appearance and make it a pleasure to handle.

85 BLACK BEAR

The Sako 85 Black Bear has a medium-contour fluted barrel, a matte black stock with soft grip surfaces and blued action and barrel. Its lightweight, compact size and good weather resistance mean it’s a perfect choice for the active hunter. The Sako 85 Black Bear is extremely well balanced, making it ideal for situations that require rapid action.

SIGHTS AND BARREL

The 85 Grizzly has rapid target acquisition iron sights with a full rear sight line and bead, and a fluted barrel with a swivel band.

SIGHTS AND BARREL

The 85 Black Bear has rapid target acquisition iron sights with a full rear sight line and bead, and a fluted barrel with a swivel band.
**85 BROWN BEAR**

The Sako 85 Brown Bear is also available in action size XL. This extends the caliber selection of the Bear series to include 416 Rigby, 450 Rigby and 500 Jeffery. The laminate stock has been redesigned to accommodate larger calibers, while the barrel profile has been redefined for the new calibers.

**85 KODIAK**

The Sako 85 Kodiak was designed with a true hunter in mind. The straight, weatherproof stock is made of grey laminated hardwood and reinforced with two cross-bolts. The short, free-floating medium contour barrel features adjustable open sights and a band-type front swivel. The barrel is cold hammer-forged using high-grade alloy stainless steel. The bolt, receiver and detachable magazine are also made of stainless steel, and provide reliability even under severe weather conditions.
Long range hunting is extremely demanding. There is no room for compromises when you are shooting game from long distances: your rifle and other gear have to be match grade in order to guarantee a vital hit.

The Sako 85 Long Range rifle has been designed to overcome any distance and challenge you may face. The Sako 85 Varmint rifles, in turn, are the perfect tools for targeting smaller marks, often with the help of a large objective and the rest under the weapon. For this purpose, these rifles boast a heavy barrel, a single-set-trigger, a pronounced pistol grip and a flat fore-end bottom.
**85 VARMINT**

The Sako 85 Varmint rifle is a long range hunting rifle for small to medium game, built to deliver pinpoint accuracy for hunting and target shooting. The heavy, free-floating barrel diminishes vibration and recoil, which makes it easy to zoom in and stay on target. The Varmint rifle stock is made of walnut, enhancing both comfort and accuracy. In addition, it features an extra wide, flat-bottomed beavertail fore-end and a more pronounced pistol grip for a better bench shooting position.

**BARREL**

A heavy barrel and a wide flat bottom fore-end enable steady shooting on sandbags.

**85 VARMINT STAINLESS**

The Sako 85 Varmint Laminated Stainless rifle comes with all the same qualities as the Varmint model, only its stainless steel parts and stable laminate stock are optimised for rough conditions. The fluted barrel increases heat dissipation, decreases overall weight and gives this rifle its distinctive beauty.

**PISTOL GRIP**

The pronounced pistol grip is designed to improve the ergonomics of the prone position.

The Sako 85 Long Range rifle is designed especially for long range hunting. Specific details, such as a muzzle brake, 26” match grade barrel, double sling studs and a stock designed for the prone position, guarantee that you will hit your target even from extreme distances.

**85 LONG RANGE**

**Muzzle Brake**
Flush design muzzle brake was added to reduce the recoil. Muzzle brake will make it easier to keep the target in sights after the shot.

**Stock**
The Sako 85 Long Range has a flat fore-end that provides better support while shooting without a bipod. The double studs enable simultaneous attachment of both the sling and bipod.

**MUZZLE BRAKE**

Flush design muzzle brake was added to reduce the recoil. Muzzle brake will make it easier to keep the target in sights after the shot.
The Sako TRG is an accuracy concept designed to accomplish a single-minded mission: to hit the target – whatever it takes, giving you unique performance that surpasses the highest demands for accuracy, reliability and versatility.

The TRG Accuracy Concept is designed to meet individual demands, adapting to each shooter’s personal style, build and posture. The super target-grade barrel, made especially for the TRG rifles, is cold-hammer forged. The sturdy bolt with three locking lugs accurately feeds rounds from the centerline of a detachable staggered two-row magazine. All Sako TRG receivers are drilled and tapped for a Picatinny rail.

The TRG Accuracy Concept serves several military and law enforcement organisations as their primary sniper weapon system. The rifle is also used by long-range competition shooters and is a CISM competition winner.

SAKO TRG RIFLES
The Sako TRG 22 and 42 A1 are made for one specific task: to hit the target – whatever it takes. The 22 and 42 A3 have been taken to the next level with new features inspired by our flagship model, the TRG M10.

**TRG 22/42 A1**

**CALIBER / RATE OF TWIST:**
- **TRG 22 A1** (10 rounds in magazine):
  - 308 Win / 11”
  - 260 Rem / 8”
  - 6.5 Creedmoor / 8”
- **TRG 42 A1** (5 rounds in magazine):
  - 300 Win Mag / 11” (7 rounds in magazine)
  - 338 Lapua Mag / 10”

**FULLY ADJUSTABLE REAR STOCK**
All adjustments can be done quickly without the use of any tools. The stock can also be securely locked down when required.

**MODULAR M-LOK FORE-STOCK**
The M-LOK standard has a robust design and is compatible with a wide range of accessories. The M-LOK interface is also easy to use and offers a secure lock for many different applications.

**DOUBLE PLUNGERS**
The TRG 42 is equipped with double plungers, which make frequent cartridge ejection more seamless than ever.
The TRG 22 rifle in .308 Win can handle a multitude of accuracy tasks. It’s a thoroughbred 300 m ISSF standard competition rifle – and a CISM competition winner.
The TRG M10 is a bolt action, multi-caliber, manually operated, magazine-fed, shoulder-fired sniper weapon with a high-capacity magazine and fully adjustable stock that provides a single weapon system solution for many different applications. A high level of configurability makes the TRG M10 an extremely versatile platform: it easily converts from a true long range precision rifle to a more compact piece of equipment.

**AMBIQUIDRIOUS CONTROLS**

The ambidextrous controls are well within the reach of the firing hand and are large enough to be also operated with gloves on. The robust and fully adjustable trigger unit can be detached for maintenance and adjustment without further disassembling the weapon.

**FULLY ADJUSTABLE REAR STOCK**

All adjustments can be done quickly without the use of any tools. The stock can also be securely locked down when needed by using tools that come inside the weapon. The pistol grip has an interchangeable back strap in three different sizes; all three are included in the standard package.

**TACTILE INDICATORS**

Identification of modular components for different calibers can be done visually or from tactile indicators placed on each critical component.

Many hunters begin their journey with their trusty rimfire rifle by their side. This is a tradition Sako Rimfire rifles proudly continue.

The Sako Quad is a special small game bolt-action rimfire rifle with interchangeable barrels. This makes the Sako Quad extremely versatile – you can change the barrel and switch calibers in couple of seconds. The Sako Quad is no ordinary rimfire rifle: it’s a small bore hunting and training firearm that functions as its own system, complete with several options to choose between.

The Finnfire II, in turn, is a reincarnation of the classic Sako Finnfire from the 1990s. It is a perfect blend of Finnfire and Quad system, providing the best possible rimfire rifle experience.
QUAD RANGE

The Sako Quad Range is an extremely versatile rimfire rifle, ready to accompany you to a small game hunt or to the range. An ergonomic stock combined with high adaptability makes for a unique, reliable rifle.

CALIBERS

Each Sako Quad caliber has unique characteristics and is designed for a specific targeting purpose. Calibers from left to right: 17 Mach 2, another version of the popular 22 LR; 22 LR, the universal caliber for target shooting and close-range small game hunting; 17 HMR, a high-velocity varmint cartridge with excellent ballistics up to 150 yards; 22 WMR, the most powerful Sako Quad caliber – an excellent small game and varmint cartridge.

QUAD HUNTER PRO

The Sako Quad Hunter Pro combines the latest Sako features with the look and feel of a traditional Sako hunting rifle. The full-sized walnut stock resembles the famous Sako 75 design and offers the same accuracy as all legendary Sako hunting rifles.

COLOR CODING

Both barrels and magazines are colour-coded and marked to indicate matching pairs.
The Sako Quad Varmint is an excellent choice for hunting and bench-rest target shooting with its flat-bottomed extra wide fore-end and heavier barrel.

The Sako Quad Synthetic comes with a stylish modern synthetic stock, blued barrels and a black rubber recoil pad. Sako Quad butt stock spacers are available for modifying the length of pull.

All Sako Quad rifles are built with the same standards as Sako centerfire rifles. The same feel, ergonomics and quality are implemented for our rifles of larger calibers. We want to provide our customers with Sako's known high-quality features – regardless of the caliber.
**QUAD HEAVY BARREL**

The Sako Quad Heavy Barrel rifle can handle repeated firing without getting too warm. The Monte Carlo-type cheek piece on a black synthetic stock grants a great bench shooting position. The rifle’s length of pull can be adjusted with recoil pad spacers.

**FINNFIRE II**

The Sako Finnfire II celebrates our past. The design brings a retro spirit to our rimfire selection and features some of the classic design elements of the old Finnfire.

The Sako Finnfire II has a full metallic bolt handle in the spirit of the old Finnfire.

---

OPTISUP .22 & .17

OptiSup .22 and .17 are simple and straightforward rimfire suppressors. These two models have a structure where the solid baffle construction can be easily dismantled for cleaning. The .22 version is extremely lightweight due to internal baffles that are made from a durable synthetic material. The .17 version has the same structure, but the baffles are made from aluminium.

- Removable internal baffles for easy cleaning
- Lightweight construction
- Cerakote® surface treatment for optimal weather resistance
- Two models: one for .22 and the other for .17

A quality rifle deserves quality accessories. The Optilock™ scope mounts perfectly complement Sako manufactured rifles and ensure ultimate accuracy in all circumstances.

Standard Optilock™ base features a indexing edge that makes it easier to tighten the ring without any accidental rotation. All Optilock™ bases have a brand new angular design to perfectly go along with the beauty of the rifle itself.

Optilock™ bases and adjustment rings are offered in different lengths and sizes. This allows for a multitude of different scope sizes and brands to be fitted onto Sako rifles.

The ring insert of the inner scope is made of polymer and protects the scope tube from deforming.

There’s a selection table behind every Optilock™ package. This ensures it’s easy to find the correct base and ring combination for your exact needs. More info at sako.fi

Pick the right Optilock combination

We at Sako have a passion for hunting. We firmly believe that it is a truly unique sport, and as such we want to provide you with the perfect cartridge for each situation.

Our history started in 1921 with hand-manufactured firearms and we started manufacturing rifle cartridges in 1928. Even though high technology has since been introduced, we strive to maintain that same level of uncompromising craftsmanship. As hunters, the quality of our cartridges is a matter of pride.

We utilize modern computer-aided R&D and CNC manufacturing methods, yet the final critical steps we carry out ourselves. Each individual brass case is inspected by hand for quality assurance purposes. All Sako cases and bullets are suited for reloading and, with their sturdy quality, are said to outlast the competition. We offer 32 different calibers with more than 100 different loads. All Sako cartridges comply with C.I.P requirements.

Technology is only half of the story; a cartridge is never simply a cartridge. It’s an essential part of each hunt, the enabler of each shot. It’s something that puts you in charge of the situation. Choosing the correct tool for the task makes all the difference in the world.

To make the selection process easier for you, we have introduced a colour-coded system of categorisation for our cartridges. Bonded or un-bonded? Rapid or controlled expansion? You can know the basics at a glance, so you never have to struggle with the wrong cartridges ever again.

Choosing the right cartridge is no small thing. It’s all about respecting your rifle, nature, and the animal you’re hunting. With us, you’re entitled to demand perfection.

KNOW YOUR GAME
SAKO CARTRIDGES – UNRIVALED ACCURACY AND CONSISTENT PERFORMANCE

When it comes to cartridges, we at Sako never settle for second best. Our legacy of accuracy and performance has proven this time and time again. We combine the latest technology with traditional gunsmith know-how to bring you the best cartridges money can buy. Familiarise yourself with our different product series and pick the right alternative for your rifle and shooting purpose.

Rapid Expansion Series
Maximised stopping power for small game. Non-bonded core and a lighter jacket. Mainly used for varmint and trophy hunting.

Monolithic Series
Non-bonded cartridges with high penetration capabilities and good durability. Maximal weight retention. Mainly used for big game hunting.

Controlled Expansion Series
Optimised stopping power and good durability against bone. Bonded core and a thicker jacket. Mainly used for hunting medium and big game.

Target Series
Precision performance and optimal aerodynamics. Higher shooting velocity, less bullet drop and wind drift.

Sako Ballistics
The Sako Mobile Ballistics App is a free, easy-to-use ballistic calculator that allows hunters and long-range shooters to identify the right cartridge for the given purpose.

The application stores data on all of Sako’s cartridges and you can create your own profile for your rifle and ammunition combo.
